

A program for family, friends and carers in country SA

Are you supporting someone experiencing suicidal distress or following a suicide attempt? If so, the *Minds Together* program can help.

Minds Together is a free, evidence-based program designed to enhance the skills and knowledge of family, friends and carers in country SA.

What you'll gain:

- New strategies for supporting someone
- Ways to look after your own mental health and wellbeing while caring for others
- Access to videos, expert podcasts and interactive activities
- Connection with others who provide support and care.
